

5th October 2010

Morpheus sponsors European Manufacturing Strategies summit

The Morpheus Group is delighted to be sponsoring the 6th annual EMS summit to be held in Düsseldorf on the 18 - 20 October. The summit is Europe's leading event for process and discrete manufacturing and attracts some 300 senior level industry professionals from across Europe.

2011 will see Morpheus Group continue to grow its footprint in Manufacturing where we already have aerospace, Nuclear, Automotive, Marine and Agricultural experience. In the last three years teams from Morpheus have won and been short listed for numerous European and UK awards, including from IQPC (International Quality and Productivity Centre) and the MCA (Management Consultancies Association).

As well as an outstanding delivery track record, Morpheus has a USP of controlling our project exit by providing full time resource for continued sustained company improvement through our recruitment practice. We will be showing our Morpheus Lean Sigma University (MLSU) which provides a complete workforce training solution to up skill your existing staff through mentored project delivery, alongside our core products of –

1. Lean Sigma Process Excellence
2. Delivering Organisational Strategy (Management Systems)
3. Programme and Organisational Governance
4. World Class Change Management (ChAT [TM])

Another differentiator is using Closed Loop Management Systems; whereby we build programmes of work which provide the framework to define strategy, translate it for operational delivery, listen to customers, plan, own, measure, respond and continually pilot your strategic course.

If you would like to know more about our services then visit us at the EMS summit or contact Ian Pinches on 07733 360334 or email ian.pinches@morpheus-group.com.

-Ends-
